PROGRAMMING LANGUAGES

TOOLS / PLATFORMS

DATABASES

Java, SQL, Python, HTML, CSS, JavaScript, PHP

Visual Studio Code, Eclipse, Jupiter Notebook

MySQL

PROJECTS / OPEN-SOURCE

THE JUMPER GAME | [LINK](#)

HTML, CSS, JS

I created a browser game with an interactive red ball using HTML, CSS, and JavaScript. Players control the ball with the spacebar, countering the natural downward physics.

THE COIN COLLECTOR GAME | [LINK](#)

HTML, CSS, JS

Designed a captivating browser game using HTML, CSS, and JavaScript with a user-controlled blue square navigating through a virtual environment using on-screen keys. Objective: guide the square to collect yellow coins strategically placed, implementing collision detection, and a scoring mechanism to track progress.

CERTIFICATIONS

- Game Development Using JS - **SOLOLEARN**
- Java (Basic) - **HACKERRANK**
- Java Intermediate - **SOLOLEARN**
- Python for Beginners - **SOLOLEARN**
